PROFILE

Recent graduate passionate about technology, merging tech support proficiency with front-end development skills. As a tech support intern, I excelled in problem-solving and user-centric thinking while applying front-end expertise for intuitive interfaces. Ready to contribute to a dynamic team and continuously grow in tech. Open to networking and new opportunities!

WORK EXPERIENCE

Software Development Intern

Cowin Technologies Private Limited

Hybrid, Hyderabad, India

08/2023-Present

- I am currently a Software Development Intern, actively contributing to ongoing software projects. My role involves coding, and developing a responsive website and desktop application.

Skills: HTML5, CSS, Javascript, Bootstrap, PHP, Java, Figma

Tech Support Intern

Startoon Labs Private Limited

On-site, Hyderabad, India

02/2023-05/2023

- Developed a dynamic medical report based on ROM and EMG for the Pheeze device, a product with functionality to track muscle performance and range of motion, using front-end technologies.
- Maintained the Startoon Labs website, including updating content and adding new features.

Skills: HTML5, CSS, Javascript, Bootstrap, Chart.js, PHP, MongoDB

PROJECTS

Intelligent Crop Recommendation System using Machine Learning

- Developed an agricultural decision support system with Python's Django backend, powered by Machine Learning libraries, and HTML, CSS, and JavaScript frontend
